Global Ecology and Biogeography

A Journal of Macroecology

Volume 11, 2002

Editors: Robert J. Whittaker
Mark V. Lomolino
F. Ian Woodward
Brian A. Maurer

Book Review Editor: Richard Field

Global Ecology and Biogeography

Volume 11 Issue 1 January 2002

Ecological Sounding

1 D. D. Breshears & C. D. Allen: The importance of rapid, disturbance-induced losses in carbon management and sequestration

Research Articles

7 M. D. Morecroft, C. E. Bealey, O. Howells, S. Rennie & I. P. Woiwod: Effects of drought on contrasting insect and plant species in the UK in the mid-1990s

23 S. L. Berry & M. L. Roderick: Estimating mixtures of leaf functional types using continental-scale satellite and climatic data

Research Letters

41 R. N. Reed & S. M. Boback: Does body size predict dates of species description among North American and Australian reptiles and amphibians?

49 D. F. Sax: Equal diversity in disparate species assemblages: a comparison of native and exotic woodlands in California

59 M. Cardillo: Body size and latitudinal gradients in regional diversity of New World birds

67 S. D. A. Smith: Kelp rafts in the Southern Ocean

71 M. Spencer, S. S. Schwartz & L. Blaustein: Are there fine-scale spatial patterns in community similarity among temporary freshwater pools?

79 R. A. Gill, R. H. Kelly, W. J. Parton, K. A. Day, R. B. Jackson, J. A. Morgan, J. M. O. Scurlock, L. L. Tieszen, J. V. Castle, D. S. Ojima & X. S. Zhang: Using simple environmental variables to estimate below-ground productivity in grasslands

87 **Library Letters**

Volume 11 Issue 2 March 2002

Research Articles

89 M. Kessler: Range size and its ecological correlates among the pteridophytes of Carrasco National Park, Bolivia

103 J. J. Lennon, W. E. Kunin, S. Corne, S. Carver & W. W. S. Van Hees: Are Alaskan trees found in locally more favourable sites in marginal areas?

115 J. Liu, J. M. Chen, J. Cihlar & W. Chen: Net primary productivity mapped for Canada at 1-km resolution

131 R. P. Anderson, M. Gómez-Laverde & A. T. Peterson: Geographical distributions of spiny pocket mice in South America: insights from predictive models

Research Letters

143 G. Davidowitz: Does precipitation variability increase from mesic to xeric biomes?

155 D. E. Gammon & B. A. Maurer: Evidence for non-uniform dispersal in the biological invasions of two naturalized North American bird species

163 M. Rejmánek & R. Klinger: Multiple source pools for Galápagos plant species richness: a critical analysis of the line of sight connectivity index

169 M. J. Adams & R. B. Bury: The endemic headwater stream amphibians of the American Northwest: associations with environmental gradients in a large forested preserve

179 R. M. Krishnan: Reproductive phenology of a wet forest understorey in the Western Ghats, South India

183 **Library Letters**

Volume 11 Issue 3 May 2002

Ecological Sounding

185 T. M. Blackburn & K. J. Gaston: Scale in macroecology

Research Articles

191 A. L. V. Davis, R.J. Van Aarde, C. H. Scholtz & J. H. Delport: Increasing representation of localized dung beetles across a chronosequence of regenerating vegetation and natural dune forest in South Africa

211 T. W. Pyrcz & J. Wojtusiak: The vertical distribution of pronophiline butterflies (Nymphalidae, Satyrinae) along an elevational transect in Monte Zerpa (Cordillera de Mérida, Venezuela) with remarks on their diversity and parapatric distribution

223 M. Yu, Q. Gao, Y. Liu, H. Xu & P. Shi: Responses of vegetation structure and primary production of a forest transect in eastern China to global change

Research Letters

237 C. Labaune & F. Magnin: Pastoral management vs. land abandonment in Mediterranean uplands: impact on land snail communities

247 L. W. Morrison: The geographic distribution of pubescence in the sea daisy, *Borrichia aborescens*, on Bahamian Islands

253 K. C. Burns: Seed dispersal facilitation and geographic consistency in bird–fruit abundance patterns

261 **Library Letters**

Volume 11 Issue 4 July 2002

Research Articles

265 J. M. Lobo, J.-P. Lumaret & P. Jay-Robert: Modelling the species richness distribution of French dung beetles (Coleoptera, Scarabaeidae) and delimiting the predictive capacity of different groups of explanatory variables

279 P. Pyšek, T. Kučera & V. Jarošík: Plant species richness of nature reserves: the interplay of area, climate and habitat in a central European landscape

291 O. R. Vetaas & J. A. Grytnes: Distribution of vascular plant species richness and endemic richness along the Himalayan elevation gradient in Nepal

Research Letters

303 S. H. Ferguson: The effects of productivity and seasonality on life history: comparing age at maturity among moose (*Alces alces*) populations

313 K. F. Smith & J. H. Brown: Patterns of diversity, depth range and body size among pelagic fishes along a gradient of depth

323 J. A. Rosenfield: Pattern and process in the geographical ranges of freshwater fishes

333 M. P. Nott, D. F. Desante, R. B. Siegel & P. Pyle: Influences of the El Niño/Southern Oscillation and the North Atlantic Oscillation on avian productivity in forests of the Pacific Northwest of North America

343 M. L. McKinney: Do human activities raise species richness? Contrasting patterns in United States plants and fishes

349 **Library Letters**

Volume 11 Issue 5 September 2002

Special Paper

353 R. E. Ricklefs & E. Bermingham: The concept of the taxon cycle in biogeography

Research Articles

363 P. Koleff & K. J. Gaston: The relationships between local and regional species richness and spatial turnover

377 N. Ramankutty, J. A. Foley, J. Norman & K. McSweeney: The global distribution of cultivable lands: current patterns and sensitivity to possible climate change

Research Letters

393 M. A. Lefsky, W. B. Cohen, D. J. Harding, G. G. Parker, S. A. Acker & S. T. Gower: Lidar remote sensing of above-ground biomass in three biomes

401 M. E. Prince & M. Silva: On the determinants of census area: implications for mammalian macroecological patterns

411 T. W. Gillespie: Latitudinal extent and natural history characteristics of birds in Nicaragua

419 B. A. Hawkins & J. A. F. Diniz-Filho: The mid-domain effect cannot explain the diversity gradient of Nearctic birds

427 J. R. Michaux, J. G. De Bellocq, M. Sarà & S. Morand: Body size increase in insular rodent populations: a role for predators?

437 **Library Letters**

Volume 11 Issue 6 November 2002

Announcement

441 R. J. Whittaker: Important notice for all potential authors and referees of *Global Ecology and Biogeography*

Climate Change and Conservation Special Issue

443 M. B. Bush & R. J. Whittaker: Editorial

445 G. F. Midgley, L. Hannah, D. Millar, M. C. Rutherford & L. W. Powrie: Assessing the vulnerability of species richness to anthropogenic climate change in a biodiversity hotspot

453 P. M. Berry, T. P. Dawson, P. A. Harrison & R. G. Pearson: Modelling potential impacts of climate change on the bioclimatic envelope of species in Britain and Ireland

463 M. B. Bush: Distributional change and conservation on the Andean flank: a palaeoecological perspective

475 D. Scott, J. R. Malcolm & C. Lemieux: Climate change and modelled biome representation in Canada's national park system: implications for system planning and park mandates

485 L. Hannah, G. F. Midgley & D. Millar: Climate change-integrated conservation strategies

Research Letter

497 J. F. Mota, F. J. Pérez-García, M. L. Jiménez, J. J. Amate & J. Peñas: Phytogeographical relationships among high mountain areas in the Baetic Ranges (South Spain)

Meta-Analysis

505 K. G. Ashton: Patterns of within-species body size variation of birds: strong evidence for Bergmann's rule

525 **Library Letters**
